

An ISO 9001-2008 Company

DIGITAL

WEIGHING SYSTEMS PVT LTD

ELECTRONIC ROAD WEIGHBRIDGE
MWS 2400

Winner of National Award for Quality & Entrepreneurship

ELECTRONIC WEIGHING SYSTEMS OF WORLD CLASS

MWS 2400

TECHNICAL SPECIFICATION			
Measurement Rate	50 Measurements per second	Net Weight	Automatic Computation
Resolution	Selectable	Operation	Menu Driven
Over Capacity	Visual indication provided in Weight Display	Weighing Range	0 to Rated Load
Visual Display	25 mm, 6 Digits, 7 Segment for Weight Display		
Polarity Indication	“-“ Sign in weight display	Software	EEPROM Based, User friendly, Menu Driven
Calibration	Software (Password protected)	Self Diagnostics	Provided
AZM Capture range	Selectable	Auto Latching	Provided
Serial Output	RS 232 Serial Port	EMI / RFI	Protected
Auto Zero	Provided	Power Supply	230 V AC \pm 10 %, 50 Hz \pm 3 Hz, Single Phase
Password Facility	Provided	Power Consumption	40 VA
A/D Conversion	24 Bit high resolution	Temperature Range	5 to 55 Degree Centigrade.
Connectivity : 4-20mA		Enclosure	Table top

Specifications are subject to change without notice
